CITY ORGANIZATIONAL CHART

Origin and Growth

Scottsdale is centrally located in Maricopa County, Arizona, with its boundaries encompassing an area approximately 185.2 square miles. Lying at an elevation of 1,260 feet above sea level, the City averages 322 days of sunshine and 7.74 inches of rainfall per year, with the average minimum and maximum temperatures ranging from 56.2 degrees to 86.3 degrees, respectively. The City is bordered to the west by Phoenix, the state capital, by Tempe to the south, and by the Salt River/Pima Maricopa Indian Community to the east. Scottsdale, together with its neighboring cities, forms the greater metropolitan Phoenix area, which is the economic, political, and population center of the state.

Scottsdale was founded in the 1800's when retired Army Chaplain Major Winfield Scott homesteaded what is now the center of the City. The City incorporated in 1951 and the City Charter, under which it is presently governed, was adopted in 1961. The City has experienced significant increases in population, with the 1950 census reporting 2,032 residents and the 1990 census reporting 130,069. The population grew to 168,176 in October 1995 and is estimated at 234,628 for July 2005.

Government and Organization

Scottsdale operates under a council-manager form of government as provided by its Charter. The Mayor and six City Council members are elected at large on a non-partisan ballot for a four-year term. The City Council appoints the City Manager, who has full responsibility for carrying out Council policies and administering City operations. The City Manager, in turn, appoints City employees and department General Managers under service procedures specified by Charter.

Employment

Scottsdale is creating jobs faster than it is adding to its labor force, and thus is a net importer of jobs. Not only does this situation create employment opportunities for the residents, but it also creates a significant business component to the local tax base. The unemployment rate is lower than state and metro levels and is approximately 3.9% (April 2005).

Transportation

Scottsdale's transportation network offers citizens a variety of mobility choices. The Pima and Red Mountain Freeways and City streets let people move into and around the City. The advanced technology of Intelligent Transportation Systems detection, dynamic message signs and signalization help minimize delays, especially during special events like the FBR Open. Local and regional bus routes and alternative modes of transportation such as Cab Connection and bicycles provide additional access to this extraordinary City. Scottsdale Airport, operated by the City, provides general aviation and worldwide charter air service. The Transportation Department's divisions are Aviation, Transportation Planning, Transit, Traffic Engineering-Intelligent Transportation Systems and Transportation Administration. They work together to support the mission of encouraging livable neighborhoods and providing for safe, efficient and affordable movement of people and goods in Scottsdale.

Educational Facilities

Several institutions of higher learning are available to City residents. Arizona State University, one of the major universities in the nation, is located in Tempe just south of the City. The University has approximately 57,000 students, graduate and undergraduate, a choice of 12 colleges and has 2,268 full-time faculty members. Scottsdale Community College, a part of the Maricopa Community College System, is located on the eastern border of the City, on the Salt River/Pima Maricopa Indian Community. The college is a two-year college, which offers a wide variety of academic, occupational, developmental, and special interest programs. Other higher educational facilities include the University of Phoenix and the Scottsdale Culinary Institute. The City is also served by 25 public elementary and middle schools, 5 public high schools, and a number of private schools.

Tourism

Tourism is one of Scottsdale's largest industries and is a significant contributor to Scottsdale's economy. Numerous resort and convention facilities, along with many hotels and motels, provide nearly 10,000 guest rooms, along with many public and private golf courses and tennis courts, and several country clubs. The number of rooms is expected to remain stable through 2006. More than 17,000 retail shops, boutiques, and galleries are located throughout the City and a selection of almost 600 restaurants is available. These services and facilities, complemented by the mild winter, have made Scottsdale a popular vacation spot for tourists and winter visitors.

Budget Award for Fiscal Year 2004/05 Budget

The Government Finance Officers Association of the United States and Canada (GFOA) presented a Distinguished Budget Presentation award to the City of Scottsdale, Arizona for its annual budget for the fiscal year beginning July 1, 2004. In order to receive this award, a governmental unit must publish a budget document that meets program criteria as a policy document, as a financial plan, as an operations guide, and as a communications device.

The award is valid for a period of one year only. We believe our current budget continues to conform to program requirements, and we are submitting it to the GFOA to determine its eligibility for another award.
